

Bill Haley and His Comets

In one year alone, Haley discs sold 30 million! The Comets have starred 15 years, but their popularity hasn't waned. Jammed houses greeted them when they last played Vancouver in May.

Television credits? Bill Haley's too busy for that - - busy making movies like "Rock Round the Clock" and playing the background music for "Blackboard Jungle".

Can any rock 'n' roller say he's sold 30 million-plus records? Can any rock 'n' roller say he played at a birthday party for England's Duke of Kent? Only Bill Haley and his ever-popular Comets.
